FERTILIZER

ONE NOZZLE FOR ALL APPLICATIONS OF VARYING RATES

Phone: 651-485-2410 Fax: 651-344-3226 www.spraytarget.com

VeriTarget

VT110

- Flow rate variable from .15 to .80 GPM as pressure varies from 15 to 50 PSI
- Very coarse (green cap), Coarse (blue cap), or Medium (yellow cap) droplet size
- Spray angle of 110 degrees
- Uniform spray distribution
- Quick response to rate changes
- Compatible with pressure regulators or automatic rate controllers.

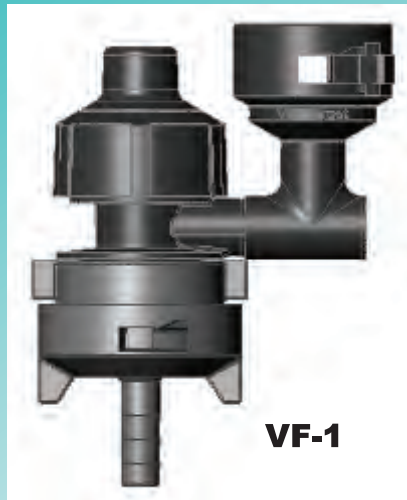

VeriJet

VJ-3

- Three solid streams of equal capacity
- Flow rate variable from .15 to 1.0 GPM as pressure varies from 15 to 65 PSI
- Spray angle of 36 degrees
- Uniform spray distribution at spray height of 20"

VeriFlow 1

VF-1

- A single outlet
- Flow rate variable from 0.10 to 2.50 GPM as pressure varies from 13 to 65 PSI
- 1/4 " or 3/8" hose barb
- Quick connection cap

VeriFlow 2

VF-2

- Two outlets of equal capacity
- Flow rate per outlet variable from .06 to 0.55 GPM as pressure varies from 13 to 65 PSI
- 1/4 " or 3/8" hose barb
- Quick Connection Cap
